

— THAMSERKU EXPEDITION —

A New Chapter

Turning passion for the mountains into purposeful expeditions —
Sherpa-led, operationally precise, and prepared for with care.

For nearly four decades, Thamserku has been built on something more enduring than ambition — a deep respect for the mountains, the communities that live beside them, and the climbers who return to them, again and again.

Today, that same spirit takes a new form. Thamserku Expedition now stands as a dedicated Himalayan expedition house; Sherpa-led, operationally precise, and guided by a philosophy that treats every journey as something worth preparing for with care.

The work is the same as it has always been: careful preparation, a small circle of trusted hands on the rope, and an understanding that the mountain decides what is possible. What changes is the architecture around it: clearer, calmer, and shaped to fit the climber as much as the objective.

“The mountain is no longer merely a summit objective. It is a personal journey — a test of discipline, of humility, and of what we are capable of when we are truly prepared.”

Five Editions. *One Philosophy.*

Our Expedition Architecture is a structured approach to designing Himalayan expeditions that honour both the mountain and the climber. Each Edition reflects a distinct philosophy and style — but not a price point. All expeditions are fully customisable.

A EDITION A **Alpine**

Pure alpinism. Minimal structure, fast decision-making, and essential support only. For committed climbers who value independence, technical purity, and lightness.

B EDITION B **Bespoke**

Fully personalised and modular. Co-designed with our guiding team around your goals, timeline, and preferences. For a climbers journey built around them, not a template.

C EDITION C **Crafted**

A balanced premium expedition: strong performance focus, elevated comfort, and curated logistics. Precision and refinement at every stage of the ascent.

D EDITION D **Definitive**

Our fully supported flagship experience. Comprehensive logistics, world-class Sherpa leadership, and elevated hospitality from Day one. Nothing left unconsidered.

E EDITION E **Explorer**

Transformational journeys beyond conventional itineraries. Exclusive routes, rare objectives, and deeply immersive experiences for explorers and elite climbers.

Featured Autumn. *Expeditions 2026.*

Every autumn offers a brief window when the Himalayas reveal their finest climbing conditions. From celebrated classics to remote exploratory objectives, our 2026 programme reflects the breadth of the Thamserku Expeditions philosophy, combining proven expedition expertise with authentic exploration.

Manaslu Expedition

8,163M | North-East Ridge, Nepal

The world's eighth-highest mountain remains one of the finest Himalayan expeditions for climbers aspiring to an 8,000-metre summit. Our Manaslu programme combines meticulous expedition logistics, experienced Sherpa leadership, and refined Base Camp hospitality, delivering a safe and efficient ascent via the classic Northeast Ridge.

2026 Autumn Departure

03 Sep - 08 Oct

Ama Dablam Expedition

6,812M | South-West Ridge, Nepal

Elegant, technical and unquestionably iconic, Ama Dablam continues to be one of the world's most coveted alpine objectives. Guided by our highly experienced Sherpa team, climbers benefit from expertly managed logistics, fixed-line operations, and a carefully paced itinerary designed for both performance and safety.

2026 Autumn Departure

03 Sep - 08 Oct 02 Oct - 27 Oct

16 Oct - 10 Nov 01 Nov - 26 Nov

Expedition Spotlight 2026

"Where Exploration Returns to the Himalayas."

Aapi Himal Exploratory Expedition

7,132M | North-west Route, Nepal | Explorer Edition

For climbers seeking something beyond the familiar, Aapi Himal offers one of the most compelling objectives in Nepal today. Its remarkable isolation, pristine glaciers and untouched alpine terrain evoke the spirit of Himalayan exploration that has largely disappeared from more commercial peaks.

Rising as the highest peak of Nepal's remote Aapi-Nampa massif, Aapi Himal is one of the country's least-climbed 7,000er. First ascended by a Japanese expedition in 1960, it has seen only a handful of successful summits, with the last recorded ascent achieved in 2015 by a Japanese Trio climbing in elegant alpine-style.

For Autumn 2026, Thamserku Expeditions returns to this elusive beauty following an extensive reconnaissance by our expedition team to assess access, glacier conditions, and the climbing route. Designed as an Edition E – Explorer Expedition, this program is crafted for experienced mountaineers seeking a true expedition into one of Nepal's last great frontiers.

2026 Autumn Departure

02 Oct - 31 Oct

On stewardship, new paths *and the journey ahead.*

Mr. Sonam Sherpa

CHAIRMAN & FOUNDER
THAMSERKU EXPEDITION

Dear Adventurers,

Thamserku has always been more than a company. Since 1987, it has been a form of stewardship — of the mountains, the craft of high-altitude guiding, and of the trust placed in us by climbers from every corner of the world.

Having completed the Seven Summits in 2023, I returned from those ascents with a clearer conviction that the most meaningful journeys are not those defined by the peaks reached, but by the preparation, the relationships, and the understanding earned along the way.

With Thamserku Expedition, we have built something that reflects that belief. Our new Expedition Architecture — from Alpine to Explorer Editions — is not a product catalogue. It is a framework for matching each climber's ambition and identity to the right kind of expedition.

We remain proudly Nepalese, deeply mountain-rooted, and fully committed to safety, precision, and hospitality at every stage. I look forward to welcoming both new and the returning friends to the Himalayas.

A handwritten signature in black ink, appearing to read 'Sonam Sherpa'.

Sonam Sherpa

Designed for Clarity. *Built for Climbers.*

Our new website has been designed to present our Expedition Architecture, climbing philosophy, and full range of objectives with the clarity and calm the brand deserves. Whether you are planning your first 6,000er or returning for an 8,000er objective, the experience is built to be immersive and intuitive.
